

God first separated the salt water from the fresh,  
made dry land, planted a garden, made animals and fish...  
All before making a Man and a Woman.  
He made and provided what we'd need before we were born.  
David's diet was fruits and vegetables.

These as best and more powerful when eaten raw or steamed  
crispie. And He gave us permission to eat animals that chew their  
cud  
and have hooves. We're such slow learners...

God left us a great clue as to what foods help what part of our body!  
God's Pharmacy! Amazing!

A sliced Carrot looks like the human eye. The pupil, iris  
and radiating lines look just like the human eye... And YES, science  
now shows carrots greatly enhance blood flow to and function of the  
eyes.

A Tomato has four chambers and is red. The heart has  
four chambers and is red. All of the research shows tomatoes are  
loaded with lycopine and are indeed pure heart and blood food.

Grapes hang in a cluster that has the shape of the heart.  
Each grape looks like a blood cell and all of the research today shows  
grapes are also profound heart and blood vitalizing food.

A Walnut looks like a little brain, a left and right  
hemisphere, upper cerebrums and lower cerebellums.. Even the  
wrinkles or folds on the nut are just like the neo-cortex. We now

know walnuts help develop more than three (3) dozen neurotransmitters for brain function.

Kidney Beans actually heal and help maintain kidney function and yes, they look exactly like the human kidneys.

Celery, Bok Choy, Rhubarb and many more look just like bones. These foods specifically target bone strength. Bones are 23% sodium and these foods are 23% sodium. If you don't have enough sodium in your diet, the body pulls it from the bones, thus making them weak. These foods replenish the skeletal needs of the body.

Avocadoes, Eggplant and Pears target the health and function of the womb and cervix of the female - they look just like these organs. Today's research shows that when a woman eats one avocado a week, it balances hormones, sheds unwanted birth weight, and prevents cervical cancers. And how profound is this? It takes exactly nine (9) months to grow an avocado from blossom to ripened fruit. There are over 14,000 photolytic chemical constituents of nutrition in each one of these foods (modern science has only studied and named about 141 of them).

Figs are full of seeds and hang in twos when they grow. Figs increase the mobility of male sperm and increase the numbers of Sperm as well to overcome male sterility.

Sweet Potatoes look like the pancreas and actually balance the glycemic index of diabetics.

Olives assist the health and function of the ovaries

Oranges, Grapefruits, and other Citrus fruits look just like the mammary glands of the female and actually assist the health of the breasts and the movement of lymph in and out of the breasts.

Onions look like the body's cells. Today's research shows onions help clear waste materials from all of the body cells. They even produce tears which wash the epithelial layers of the eyes. A working companion, Garlic, also helps eliminate waste materials and dangerous free radicals from the body.

Please don't break this even if you only send it to one person. Look at the date when this was started. Thanks

NOTICE AT THE END, THE DATE THE CANDLE WAS STARTED.  
GONNA GIVE YOU GOOSE BUMPS.

I am not going to be the one who Lets it die. I found it believable ---

This candle was lit on the 15th of September, 1998.

Someone who loves you has helped Keep it alive by sending it to you.

Don't let The Candle of Love, Hope And Friendship die! Pass It On To All

Of Your Friends and Everyone You Love!

I received this today for the 1st time and I hope it comes back someday again.

Please keep this candle alive!
